### Description / Action:

D130-1046-XXX Cable Cutter Kits are now FAA approved (TCCA approval in progress).

D130-1046-011/-013/-015/-021/-023 are installations @ CHG 001 that contain all the hardware to add cable cutters to EC130 B4 & T2 aircraft

D130-1046-111/-113/-115/-117/-211/-213 are sub kits @ CHG 001 that consist of the individual fixed & removable provisions

D130-1046-015 is the installation that AMRG in Dallas wants for their initial aircraft (removable provisions only, EC130T2)

Ensure all pick kits match the released dwgs per IIN-D130-1046 Rev. B and D130-1046-XXX latest rev.

M-CFABRIC-G0939 & M-EGLASS-92110 is the material dwg for composite clpht for the D130-1046-117 kit. This may only be applicable to small number of B4 aircraft.

The carbon fiber roll is expensive (\$10k) and comes in large quantities (enough for 100 kits). We may only want to purchase the roll if we have orders for -117 kits.

Most parts are already released to production. Scrap existing D5573-1/-2, D5589-1/-2, D5631-1 parts in stock and replace per revised dwgs.
